Full-Stack Web Developer

We are looking for an outstanding full stack Web Developer to be responsible for the coding, innovative design and layout of our website. You will build our website from concept all the way to completion from the bottom up, fashioning everything from the home page to site layout and function.

What you love to do:

- Write well designed, testable, efficient code by using best software development practices in Python
- Create website layout/user interface by using standard HTML/CSS practices
- Integrate data from various back-end services and databases
- Gather and refine specifications and requirements based on technical needs
- Create and maintain software documentation
- Be responsible for maintaining, expanding, and scaling our site
- Stay plugged into emerging technologies/industry trends and apply them into operations and activities
- Cooperate with web designers to match visual design intent

What we look for in you:

- BS in computer science or a related field
- Top-notch programming skills and in-depth knowledge of Python, HTML/CSS
- Adequate knowledge of relational database systems, Object Oriented Programming and web application development
- Hands-on experience with network diagnostics, network analytics tools
- Basic knowledge of Search Engine Optimisation process
- Fast and efficient problem diagnosis and creative problem solving skills

If this sounds interesting to you, send us an email with your LinkedIn/Github profile(s) and a few sentences about yourself to jobs@zugvogel.com. We look forward to hearing from you!
